ROBERT N. THOMPSON M.P. TO SPEAK AT P.C. MEETING

Robert N. Thompson, M.P. for the Constituency of Red Deer Alberta, will be Guest of Honour and Speaker at the Annual Meeting of the Victoria-Haliburton Progressive Conservative Association on Wednesday, October 30th, 1968.

Mr. Thompson was formerly National Leader of the Social Credit Party, 'til joining the Tory Party and being elected as a Progressive Conservative Member of Parliament during the last election.

Mr. Thompson's perspective of

international problems has been unusually broadened by the 15 years he spent in Ethiopia as special advisor to Emperor Haile Selassie, and by wide travels through Europe, Latin America, India, the Far East, Australia and New Zealand.

He is a recognized authority in the fields of education, international relations, particularly on the people and history of Africa, and a very prolific speaker.

The Annual Meeting will take the form of a Dinner Dance at the Royal Canadian Legion in Lindsay during the evening, with business session and election of officers in the Lindsay Town Council Chamber during the afternoon.

REV. NOEL McNEIL TO PREACH AT MINDEN

The Rev. Noel McNeil will be taking the Services at the North Road Chapel every Sunday in October. No doubt there are some who would like to hear this servant of God, again in this community and this would be a fine opportunity to do so. We wish him well.

TUESDAY AFTERNOON BOWLING RESULTS

The Tuesday afternoon bowling results were as follows: — Mar-nie 2, Jean 5, Millie 7, Ina 0, Mary Cox 7, Mary Little 0.

THURSDAY SMILE

"There was something about you I liked," said the glamour girl, "but you spent it."

NOTICE

A public meeting for persons interested in the future of education in Haliburton County will be held on Thursday, October 17, 1968 at 8:00 P.M. in the Haliburton Highlands Secondary School Auditorium. Speaker will be W. Frank Thom, Area Superintendent Secondary Schools. Area Superintendent Elementary Schools, Nelson E. Ward will also be in attendance.

Questions will be invited from the floor.

All concerned and interested people are cordially invited.

Haliburton County Interim School Organization
Committee

Haliburton County Interim School Organization Committee Report

Changes in legislation concerning the administration and operation of schools throughout the Province of Ontario provide for the formation of an Interim School Organization Committee whose responsibility it is to correlate all information pertinent to the present boards and schools and to make any recommendations which they deem may be beneficial to the board of education to take office in January 1, 1969.

Appointments to the Interim School Organization Committee are made by the various existing boards in the county and by the Ontario Teachers' Federation.

The following persons have been appointed to this committee by their respective boards: Mr. Len Salvatori - Dysart T.S.A., Mr.

H. Radford - Bycroft T.S.A., Mr. Gord Sharpless - Minden T.S.A., Mrs. Goldie Watson - North Hastings High School for Cardiff Township, Mr. Murray Agnew - Monmouth-Glamorgan T.S.A., Mr. Lenly Barry - Sherbourne-Ridout T.S.A., Mr. Harold Herlihey - Haliburton County District High School Board, Mr. T. E. Deterling - Monmouth Retarded Children's Education Authority, Mr. J. Douglas Hodgson - Ontario Teachers' Federation.

The initial meeting of this committee was held Thursday, February 22, 1968 under the chairmanship of Mr. Ralph W. Froats, Regional Superintendent, Eastern Area, Ontario Department of Education. Mr. Len Salvatori was elected by the committee members as Chairman of the

committee and Mr. Gerald M. Dawson was appointed Secretary to the committee. Further meetings of this committee have been held on April 25 and on September 4 and the initiative has been taken to accumulate and correlate all information and data of existing school boards relative to their policies, teaching and other staff, student population, plant facilities, debenture debt, etc.

On October 3, 1968 the committee met with representatives of the teachers' committee for Haliburton County to review their brief of recommendations concerning education and the board of education.

A public meeting is being sponsored by this committee on Thursday October 17, 1968 at 8:00 P.M. at the Haliburton Highlands Secondary School at which the Superintendents of education for this area will speak and be available to answer questions.

Further notice of such a meeting is in this paper. All are cordially invited. It is hoped that all interested people and parents will take this opportunity to become more fully apprised of the future of Education in Haliburton County.

HYLAND CREST TO SPONSOR CONCERT

On November 15th, at the Hyland Crest Senior Citizens Home the Hart House Glee Club of the University of Toronto and the St. Bart's Boys Choir will combine to stage a concert.

This will be one of the largest groups to present a concert in Haliburton County. There is an

expected crowd of 250 people for this performance, so it would be wise to purchase tickets as soon as they go on sale. The price will be \$1.25 per seat.

The evening is sponsored by the Committee of Management of Hyland Crest.

WINNER GETS BIG RESULTS

The winner of a recent \$1,000 Kinsman Summer draw which is held each year was Mr. William Nicholson, RR 4 Lindsay. Winning Ticket Seller was J. R. Burn, Janetville, Ontario.

ROTARY CORNER

For the Rotary Club of Minden, over the next two months, things will be popping.

First of all this month, October 20, 21, 22 we have the District Conference in Orillia. The Minden, Haliburton and Fenelon Falls Clubs are responsible for the program on Monday afternoon and evening. The clubs will stage a Los Vagus night which should be a swinging affair.

Coming up on the local front, November 4th, the club is holding a Ladies Nite. All wives will be attending the meeting, joining with husbands in a very interesting program, chaired by Joe Dollo.

Here is a date for everyone to keep in mind. Its the Rotary Fall Frolic. If you remember last years tilt held at Locarno-on-the-lake, it was a smashing good time. The date is set for November 23rd, which is a Saturday night. Location, price etc. have not been completely organized, however we will inform you to all the details at a later date in this column.

The Rotary Club membership is rolling, the Directors passed 16 proposed members on Monday night. Initiation of new members is set for October 28th.

HERE AND THERE

with Fenwick Finch

I have had several people draw my attention to a situation around the post office corner that they feel the Municipality should do something about.

The situation concerns the blockage of the street from the post office corner around past the back of the brewer's warehouse. There are several old cars and the odd bus in the area that make quite a congestion. This was quite noticeable as the large chartered tour buses have been having trouble making turns here.

Maybe the council can come up with some remedy.

* * * *

The question has again arisen about the "Vankoughnet Road" — a great many people of this area feel that it should be named — "the Peterson Road" or the new "Peterson Road". Nothing has been done, at least as far as we know, to make any changes. Since this road is coming through the Haliburton Highlands the feeling is that it shouldn't lose its identity as it is now doing.

The only way to save the name is for everyone to get together and support the movement to protect the name.

* * * *

You know, there is something that has always made me wonder. In spite of all scientific advancements and wonderful discoveries no one can seem to tell us why it is that a woman's slip keeps sagging and a man's shirt creeps up.

* * * *

Someone sent me a clipping from the "Progress" with the night school classes in Haliburton — the subject — "Creative Writing" was circled. The letter of course was unsigned — could it be that someone is trying to get a message across to me?

Sorry to disappoint and pre-think this reader but, over a week or so ago I signified my intention to join this class, if they'll have me.

* * * *

Just for the records — my friend "Charlie" is still running loose in and around Fenelon Falls — he is ranging far afield and is being joined by other dogs — this doesn't say much for by-law enforcement in the Township of Fenelon — this situation has been drawn to their attention, but no action. I don't know exactly what the "dog by-law" calls for in the way of enforcement but the taxpayers of the Township certainly aren't getting their tax-dollar's worth.

* * * *

Heard a little story the other night I thought you might appreciate. During a banquet a young chap with his light of love went up to the bar for a small libation. The young fellow said to the bar-tender, "If you don't mind I'd rather pour my girl friend's drink."

The bar tender said, "it's O.K. by me" and handed him the jug.

The young fellow started pouring the drink into the girl's glass and as he did he said, "You say 'when' sweetheart." She replied right away.

"Anytime after you've finished pouring this drink!"

* * * *

This week-end is Thanksgiving — the colour should be good. When you are up here enjoying the scenery — drive carefully so that it's the "turkey" that's cooked — not — "Your goose."

Be around next week — we'll be looking for you.

Fenwick

FOREST PROTECTION IS EVERYBODY'S BUSINESS

Forest Fire Protection is sometimes thought of as being a seasonal affair, starting in April, reaching its peak late in May or June, then tapering off through the summer or fall when fires will get out of hand and make the headlines, but public consciousness of forest fires slackens as the summer passes.

The Department of Lands and Forests, with their colleagues in other Provincial Government agencies having charge of Forest Protection work, realize it is a full time activity and that much still remains to be done.

Forest Fire Protection, having to do with a publicly owned resource, is the concern of every citizen of the Province. Therefore, the work of the staff in organizing and putting into effect prevention and suppression techniques is only partly done, if while carrying out their work, they fail to impress on every citizen — "FOREST PROTECTION IS EVERYBODY'S BUSINESS".

It is a well known fact that three-quarters of all forest fires are started by human agencies. Therefore, to achieve good protection results we must have the public on our side.

Citizens today pay taxes to their municipalities to provide fire protection for their homes and think the money well spent. The vast forests of Ontario need such protection no less than do our homes, but the public's attitude must favour the need of the strongest possible protection effort. The public may not realize they have a dollar value investment in the forest wealth, but they do realize that forests provide wealth through proper utilization of their products. Good protection will ensure that these values will be realized for a very long time. Proper utilization of the forests will provide wealth for the country, while their destruction will spell ruin for the large industry dependent on them.

Only by a sincere effort on our part can we help the citizen to develop an attitude reflected in his thoughts as he goes out into the country. "I am not going to be the one to start any Forest Fires."

58 DIE IN TRAFFIC

At least 73 persons were killed in weekend accidents across Canada, 58 in traffic.

A survey by The Canadian Press from 6 p.m. Friday to midnight Sunday night, local times, also shows one drowning, three deaths in fires, one hunting accident and 10 fatalities in other accidents.

Ontario had the worst toll with 19 dead, 13 on the roads. One trapper died in a cabin fire, a man died when he was pinned by a farm truck and four teenagers were asphyxiated in a car.

POEMS OF THE HIGHLANDS

By Burleigh Wallace

THE TEACHER

In the Haliburton Highlands,
Where life's journey we've begun,
Stands a little rustic school house,
Known as Dysart, Number One.

Many songs and poems of school days,
Have been penned from year to year;
So in tribute to our teacher
We would go on record here.

Come then teacher, once more join us,
While in fancy we renew
Happy days we spent together,
In the little school with you.

There we learned to know each other,
As we shared in work and play,
Forming this — a lasting friendship
Which we treasure, come what may.

Should you ever think that we were
Little rascals, hard to rule,
Try and put our nonsense down to
Freedom of the country school.

We remember how you helped us
When we tried to do our part;
Now, we realize more fully,
You our interest had at heart,

Should some from out our number
Rise, the favoured heights to share,
We'll remember credit due to
Principles you taught us there.

During school hours we were busy,
Seldom did we try to shirk;
Strap was laid away and musty,
For we learned to love our work.

When, at recess, we played baseball,
You were out there scoring runs:
Never, then, were you our teacher;
In the school-yard, we were chums.

When we're worn in life's hard battle,
It will help us bear the load,
When we think of peaceful journeys,
Homeward down the country road.

There at evening we would linger,
Watching from the old beech grove,
Sunset in the Kushog valley:
Scenes each one had learned to love.

If the knowledge gleaned from school books,
Should in future years be lost,
Still abides the greatest lesson,
Friendship, loyalty and trust.

Rally Of Region 6 Lindsay Presbyterian U.C.W.

The Rally of Region 6 of Lindsay Presbyterian UCW was held in Lochlin United Church on September 26, 1968 with Mrs. John Noble, Tory Hill presiding.

The opening Hymn was No. 16 with Prayer by Mrs. Noble. The address of welcome was given by Rev. Ronald McCaw, Minister of Lochlin Church.

The Worship Service was given by Carnarvon UCW — the theme "The Abundant Life". The meditation was given by Mrs. E. Ralph. The abundant life starts now. Do away with pettiness. Do something good for someone every day. Practice gratitude to God and Man. Mrs. H. Burton read the Scripture and Mrs. M. Brown offered Prayer.

A beautiful "In Memoriam" Service was conducted by Mrs. Ronald McCaw and Mrs. J. Casey of Haliburton.

Mrs. J. Brooking of Tory Hill read the minutes of the last rally. The Roll Call was read. Delegates from Carnarvon, Gooderham, Haliburton, Highland Grove, Ingoldsby, Lochlin, Maple Lake, Minden, Tory Hill, and Wilberforce were in attendance. There were also 14 members from Lindsay Presbyterian UCW Executive present which made a total attendance of 75.

Miss Olive Geach, Lindsay Cambridge Street introduced the

Guest Speaker for the Rally who was Mrs. Franklin Robinson, President of Cambridge St. Lindsay UCW and who is on the Pastoral Relations Committee of Lindsay Presbytery and also on the Settlement Committee of the Bay of Quinte Conference. Mrs. Robinson spoke on the Life of the Church, using a poster to show the different courts of the church. She said the Church is a whole company of God's believing people. She said the gay representation and attendance at Presbytery is not good enough and also feels that young men and women should be willing to serve on Presbytery Committees. Speaking of the Unified Budget she thought if we truly realized the great need, we would ask to give more, not less!

Speaking of our UCW — she asked, Does UCW equip people to reach out and follow the Jesus Way? If not, we are no different from any other organization outside the church.

Mrs. Gordon Barr, Gooderham, graciously thanked Mrs. Robinson for her splendid address.

The Presbyterian Literature Secretary, Mrs. Harry Phoenix, Greenbank opened her remarks "Books are a source of subtle delight" and gave a resume of resource books on Bible Study, Devotions, Stewardship, and in-

duced the Study Packet of our new study on China, which appears very adequate.

Mrs. Deane Wellman in a very interesting manner, spoke on Programmes as she is the Presbyterian Programme Chairman. She gave us an insight of a wealth of resources — Film strips, Tape recordings, skets, etc. She said Programming is everything we do! We must learn to evaluate each meeting! We should show concern for people in our programmes and strive for every member participation.

Hymn 530 was sung and the grace was read in unison.

A delicious luncheon was served in the attractive renovated basement of the Church.

During lunch hour the Literature table was visited.

The afternoon session was opened at 1:30 with a Hymn Song led by Mrs. Lorne Coburn of Minden, followed by prayer by Wilberforce UCW.

Miss Frances Nancekivell, Presbyterian Secretary of Supply and Welfare, gave her report giving us suggestions of services we could render to those needing our help — at home and abroad. We should still save used Ny-lons. Send money for Blanket Fund and Express charges to Mr. D. Borgal, United Church

Treasurer, 85 St. Claire East, Toronto.

Mrs. Edmund Ruth, Past President Lindsay Presbyterian UCW, spoke words of appreciation to Lochlin ladies for their splendid Rally, and spoke about "Every Member Visitation" which our Church is stressing. Wives could accompany husbands in this programme and help revitalize the church!

Mrs. G. H. Palmer, President of Lindsay Presbyterian UCW brought greetings and announced the Presbyterian Executive Meeting to be held at Fenelon Falls United Church on October 21 at 10 a.m. Bring a box lunch. Local UCW presidents are invited to attend.

2nd Vice President, Mrs. Allen Bursey of Minden, and 3rd Vice President Mrs. A. Gillis Cameron, spoke briefly.

Mrs. Walter Russell, Argyle, Presbyterian Recording Secretary asked for our co-operation on making out our annual reports on time and in full.

Miss Olive Geach, Presbyterian Corresponding Secretary, spoke in appreciation of Lochlin Church Women and then hospitality and announced Dessert Tea at Cambridge St. Church at 7:30 P.M. October 15.

Mrs. John Coburn, Presbyterian Treasurer, reported money had

been coming in for Unified Budget on schedule.

Mrs. G. Barr, Gooderham Community Friendship Secretary asked for reports at end of year, telling her of our activities in this department.

Mrs. B. Roeske, RR2, Burnt River, Presbyterian Chairman for Stewardship and Recruiting and Christian and Missionary Education gave a splendid talk on Stewardship — the theme — Conscience, Compassion, Commitment and Confrontation. She closed with a morning poem "Think brother which side are you on". This had been flashed on the screen at General Council to which she attended as a Commissioner representing Lindsay Presbytery.

Mrs. Roy Hopkins, Presbyterian Leadership Development Chairman, spoke briefly about the Workshops held this year.

Mrs. Richard Nestaway, Chairman of Nominations, asked for assistance in filling 3 vacancies on the Presbyterian Executive namely, Literature, Supply and Welfare and Leadership Development.

The offering was received and dedicated by Maple Lake ladies.

The Rally for next year is to be held at Minden.

INTEREST LACKING

As a newspaper man, I have been closely connected with this town over the past three years. Each week we look around town collecting information on different happenings or events. When one gets involved like this he becomes keenly interested in all phases of the community, and soon can see just how progressive or non-progressive a community is.

As we sit behind the typewriter this week, we have been giving the area a lot of thought, unfortunately we find interest is lacking. It is quite evident that people are content to work their eight hours, and call it a day. No one seems to have the interest of the community in mind.

Now you might wonder how I ever came to that reasoning? Well, just look around you. What projects have been completed in the community over the last three years? Projects that make people stand up and take notice that this is a progressive community. Off hand I cannot think of any. What organizations are strongly grouped together, working hand in hand, making headway, for a more prosperous area.

We have a curling club which never seems to thrive. We have no golf club in the community. We have an inactive recreation committee. We have an inactive arena committee. We have a town council which increases its budget just enough to keep up with the ever increasing costs. Looking over the meetings they have held this year, they have simply handled routine administration. Only the zoning by-law is new. The main issues have been overlooked. We have two service clubs in town, both deserve much praise for their efforts — but memberships are low. You mention something, anything, we will knock it. This isn't usually our hand — but this week we are dealing it this way.

This town sits on the brink of a vast recreational area — we sit in an area, which should grow tremendously over the next few years. Everyone should be very optimistic, for wealth and prosperity is at our fingertips. But, we must all join in a community effort to build this area in preparation for the demands of the future.

Sewers, recreational facilities, a beautification program for the town are all things we must plan and work on. Club work, community work, municipal work, are important phases of a lively community — we must have lively people to run these organizations.

Everyone should look further than his or her front door. We have a younger generation coming along, we should be building and planning for it. It seems to be the old story, everyone is looking for what they can get out of it for themselves. This is a selfish attitude, and a very unproductive one.

As individuals one can accomplish very little, but as a body, mountains can be moved. It is time people got on the band wagon in this community — got away from thinking and looking at themselves. All community affairs can be interesting, and quite rewarding, but one has to give a little of his time.

ARMISTICE DISPLAY AT CANADIAN WAR MUSEUM

A spectacular display to commemorate the 50th anniversary of the First World War armistice will open at the Canadian War Museum in Ottawa November 9.

There will be 69 panels of exhibits to describe Canada's role in the war from 1914 to 1918. They will trace the growth of the war machine from amateur beginnings to the magnificent achievements of the Canadian Corps, a powerful striking force on the Western Front.

One of the highlights of the show will be the Victoria Cross won by Lieutenant Alan McLeod, a young airman who was decorated at the age of 18. Lieut. McLeod, a native of Stonewall, Man., won the VC on March 27, 1918, recovered from his war wounds but died that November of influenza after returning home.

The display will be on the third floor of the building, where a large proportion of the material will consist of original items never before publicly displayed.

There will be picture stories of the response to recruiting, the opening of Valcartier camp, the great armada which carried the first contingent of Canadian troops to Europe, and the Canadian camp at Salisbury Plains in England.

An edited version of the film "Fields of Sacrifice" which will run for 12 minutes, will be shown almost continuously. This award-winning film was produced by Donald Brittain for the National Film Board.

The display will take an educational approach to the war, showing there was more to those years than just the fighting. But in addition, there will be detailed battle maps showing the advance of individual battalions, cartoons and photographs of the fierce conflict in France and Flanders. About 320 slides depicting that period will constantly change the scene in the main display area.

Artifacts will be shown in a manner that will illustrate the story.

A history of the First World War written by John Swetenham will be available in pamphlet form when the display is opened.

A hundred veterans of that war drawn from all branches of the Canadian Corps will be in Ottawa over Armistice weekend to take part in the various functions. They are scheduled to visit the exhibit on November 9.

DEPARTMENT OF HIGHWAYS, ONTARIO

NAVIGABLE WATERS PROTECTION ACT

R. S. C. 1952, Chapter 193

The Department of Highways, Ontario, hereby gives notice that it has, under Section 7 of the said Act, deposited with The Minister of Transport at Ottawa and at the Registry Office at Minden, Ontario, a description of the site and plans of the proposed bridges on Highway 35 in the Township of Lutterworth in the Provisional County of Haliburton and being those portions of the land and the land under the water of the Gull River and Moores Lake and the road allowance along Gull River and the road allowance around Moores Lake lying within Lots 23 and 24, Concession 6, designated as Parts 1, 2, 3, and 4 on Department of Highways Plan P-2789-21. The Plan was registered in the Registry office at Minden on September 12, 1968, at No. 41623.

And take notice that after the expiration of one month from the date of publication of this notice the Department of Highways will, under Section 7 of the said Act, apply to the Minister of Transport at his office in The City of Ottawa for approval of said sites and plans.

Dated this 25th day of September, 1968.

TO ALL MOOSE HUNTEDS

The lower jaw of your moose is urgently required in order that the Department of Lands and Forests may gain more information on the age composition of the moose population.

The lower jaw may be taken or sent to any Department Officer or office in Ontario. Each jaw should be accompanied by the name, address and licence number of the hunter, as well as the place (township) where the animal was shot and the sex of the moose. Donors will receive notification as to the age of their animal. In addition each hunter submitting the lower jaw of a moose will receive a special crest testifying to his success and co-operation.

 IS ALWAYS THERE
 WITH YOUR HELP

SPORTS

WITH BOB BEENEY

The Minden Minor Hockey Association has received notification from the Ontario Minor Hockey Association concerning the change in the age limits for players.

The date affecting a player's transfer from one age group to another is changed from May 31 to December 31.

The age date as indicated below will be in effect this season and the Constitution Rule 16 covering player eligibility will be changed at the Annual Meeting of the O.M.H.A. on November 2.

Juvenile — Under 19 — players born after December 31st 1949.

Midget — Under 17 — players born after December 31st 1951.

Bantam — Under 15 — players born after December 31st 1953.

Pee Wee — Under 13 players born after December 31st 1955.

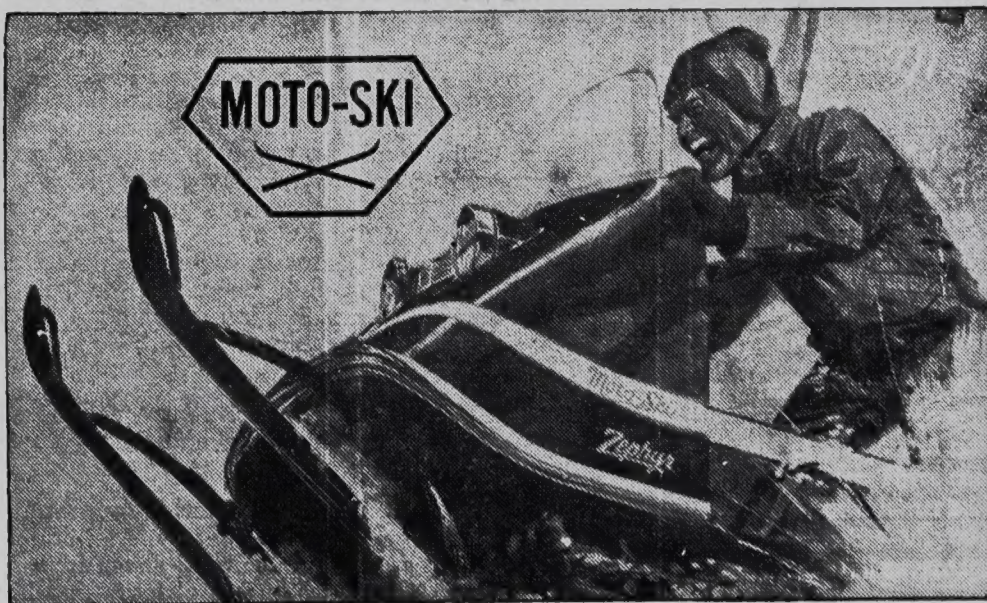

Novice — Under 11 — players born after December 31st 1957.

Every player in any series of the O.M.H.A. must file with the Registrar an official document issued by the Registrar - General's Department of the Province in which he was born indicating that the player has not attained the age limit as set out in the preceding paragraph before the 1st Day of January in which he intends to compete. This in the case of the Minden Minor Hockey Association is done by each teams manager.

The 35th Annual Meeting of the O.M.H.A. will be held on Saturday November 2 at the King Edward Hotel in Toronto. It is expected there will be a large turnout of delegates.

I have received a letter from Gary McLeod Secretary-Treasurer of the O.M.H.A. for many years. Gary is retiring due to pressure of business and personal reasons and is turning over his chores to Vern McCallum who I am sure will do a capable job.

The Minden Minor Hockey Association will start activities the first part of November and players who intend on starting then should have their registration in so that they can be insured.

QUILTING - PAST & PRESENT

Pioneer women wasted nothing. The first pieced or patchwork quilts used up every bit of material to produce warm coverlets. Material left over from sewing, good fabric from worn clothing, anything and everything that was still useable was cut and pieced together.

Large rectangular pieces of contrasting light and dark were placed in different "brickwork" designs. Small squares gave endless variation on the "double nine" blocks: narrow strips were pieced into "log Cabin". Triangles and diamonds made the difficult "star" patterns.

The layers making up the heavy quilts of homespun or suiting were usually "tied" together. Two and three stitches were taken in one spot with a thick yarn, the ends cut and firmly tied. These ends, spaced about four inches apart, made small wooly tufts across the quilt top.

Quilts of lighter material were held together by tiny stitches. Frequently the quilting in the pieced block followed the design. In the plain blocks and border artistry took over.

Probably the first quilting patterns, marked with chalk and a straight piece of wood, were simple diagonals. But these grouped and crossed to form double and triple diagonals and the various diamond designs.

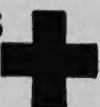

Probably a saucer or plate, or a pencil and length of string to make a home made compass, were used for the first curved designs. However it was done, those pioneer women drew patterns of simple beauty and transferred them to their material.

Actual quilting was a social occasion. With the quilt in the frames and marked, neighbours were invited to the "quilting bee".

Today few women do their own quilting, nor do they have the space for the large quilting frames. Certain church groups have become "professional" charging according to the amount of quilting involved. Seeing the quilt exhibit at the Haliburton School of Fine Arts will convince you that quilting in this part of the world is not a forgotten art.

The exposition of crafts held each summer by the Haliburton Guild draws many visitors. There are always many enquiries about quilts. Since quilts are in demand, it could be a profitable winter project. Start a quilt now and have it ready to show in the exposition and, if you wish offer it for sale.

ABOUT THE TOWN

With Jeanne Sears

The library Committee had a busy time at their meeting last week making plans for the fall work. This committee is an active one and interested in all the work that goes on in our County Library System.

The L.O.B.A. have started their card parties the last Monday of each month.

Although there was only a small crowd at their first one, all enjoyed an evenings fun with winners being Erastus Robertson, Mrs. B. J. Walker and Mrs. Fred Wright the lone hand prize on a cut of cards. A delicious lunch and cup of tea brought the party to an end.

Sports are filling the papers and TV these days. The World Series Baseball the C.F.L. and the Gray Cup and Hockey to start next week-end. Our minor Hockey players and Figure Skaters will soon be starting their winter season.

We notice that one country in Europe has introduced Commercials to their TV programming with just 20 minutes a day. Have you ever thought how much time is taken by commercials in our own TV.

Wedding bells were ringing on Saturday for Mr. and Mrs. Thomas F. Bagshaw (nee Marilyn Harrison) with their Wedding Dance at Haliburton Legion.

Mrs. Lyman Cox was the driver of a busload taking ten members of our Women's Institute to the 60th Anniversary of Burnt River W.I. last Thursday evening. This was an enjoyable time and they met acquaintances from the Twelve Branches in Victoria East as well as Mrs. McMullen President of Victoria West District.

There was a sad accident last week when Mrs. Lyons (Gail Gartshore) daughter of Mr. and Mrs. Bill Gartshore was killed. Also the death of Andrew S. Kernohan at Ross Memorial Hospital. Sincere sympathy goes to both these families.

In keeping with the Thanksgiving season, St. Paul's Anglican Church was tastefully decorated for their service of Thanksgiving last Sunday morning with the Church crowded with worshippers.

Patients at the local hospital early this week included Kenneth Moody, Leonard Hamilton, and David Voycey.

Here is a recipe for the home: First get out the utensils, you will need one husband, one wife, children to suit yourself. Next cream one cup of love until it is fluffy and mellow. Add one half cup of tears and hardships and stir gently. Whip in a cup of joy; when smooth add one teaspoon of each of thoughtfulness, heartfelt tenderness and sympathy. Add a cup of ambition with two cups of Christianity. Bake in moderate oven, top with kindness and serve repeatedly.

Don't forget the residents at the Hyland Crest, they often like to have visitors or would appreciate a drive through our beautiful country.

Has been a very cool week. The leaves are bursting with colour and bus loads of people have been through on tours. Cheerio until next time.

THE ALLAN SISTERS

Coralie (left) and Jackie, the Allan Sisters, are featured vocalists of the Tommy Hunter Show, seen each Sunday on CBC television (in color).

WOODS, WATERS AND WILDLIFE

By James Woodford

FEED THE BIRDS!

October is a good time to set up a backyard bird-feeder. A window feeder, for instance, will bring wild birds within inches of your face. Placed at the kitchen window, the bird-feeder enables the family at breakfast to watch birds flocking beyond the pane for their morning feeding.

Birds you might expect at a window feeder — particularly if the feed mixture contains a high percentage of sunflower seeds — are black-capped chickadees, blue jays, white-breasted nuthatches, carinals and purple finches. If the feeder contains a suet rack, downy woodpeckers should visit it regularly.

Among Ontario winter birds there are several species that prefer to feed on the ground. Thus, the seeds spilled by the sloppy feeding habits of other birds at the feeder are utilized by those ground feeders such as slate-coloured juncos, tree sparrows, mourning doves and pheasants.

Several feeders are always better than one. Larger birds may dominate a single feeder so that some interesting species may leave your area in search of food.

Place feeders (ones not on window ledges) near cover, but not so close that squirrels can jump on them. Much to my three and five year old daughters' delight and my dismay an enterprising and athletic black squirrel was able to leap about ten feet from a large maple to the roof of our large bird-feeder. After some careful calculations the feeder was moved two feet further back from the maple, while still avoiding some scotch

pinus. The squirrel problem was solved, at least for the moment. But the next night we looked out to see a raccoon perched on the feeder helping himself to the sunflower seeds and peanuts.

The basic food for attracting birds is a mixture of millet, cracked corn, sunflower seeds, cracked peanuts and some grain. Suet is excellent for woodpeckers, chickadees and nuthatches. A "bird-pudding" may be made by heating suet and seed mixture and then pouring it in an empty soup can. As it cools stick a piece of wire in the centre of the top, then the "bird-pudding" may be hung from a branch of a tree.

Once you start feeding birds, it is important to keep it up, because they will soon become dependent on you, especially when their natural food in the woods and fields is covered with ice and snow.

MOSES MARSDEN

PASSES AWAY AT 104

Mrs. Richard Kirkwood has received word of the passing of Mr. Moses Marsden of Lakefield. Mr. Marsden was 104 and was the honoured guest at a Chamber of Commerce dinner here a few years ago. Mr. Marsden was a former Indian Chief.

NOTICE

We would like to inform the readers of this paper that Holiday Laundramat is Not Closed, and that we are looking forward to your business.

Thank you, The Management.

If you're
planning to
modernize
your home,
here's the place
to begin.

Modernizing your home can be a delightful experience. Home improvements can do a lot to help make your way of living better than ever. But before you start to modernize, you should take care of one thing first: your household wiring.

If you begin your modernization programme by re-wiring, almost everything about your home will suddenly seem better. You'll have all the electrical outlets you need. Your appliances will perform better, and you can add all the new ones you're ever likely to need without the annoyance of overloaded circuits or blown fuses. Re-wiring will let you take advantage of the new ideas in household lighting. With decorative exterior lighting you'll be able to enjoy patio living on pleasant summer evenings. You will, in fact, be opening the doors to the joys of all-electric living, including the quiet comfort of electric heating. Start modernizing your home by re-wiring.

THE HYDRO FINANCE PLAN will let you re-wire your home right now. Call a qualified electrical contractor for details, or ask your Hydro.

TENDERS

Tenders are invited for the supply of approximately 60,000 gallons Commercial Fuel Oil to Hyland Crest Senior Citizen's Home, Minden for the 1968-69 heating season.

Please note that service of equipment will not be required.

Quotations will be received up to and including October 31st, 1968, by:

Gregory J. Wade, Administrator
P.O. Box 30
MINDEN, Ontario

Haliburton Highlands Secondary School 1968-1969 NIGHT SCHOOL CLASSES

It is proposed that night school begin on Tuesday, October 15th and continue until Tuesday, December 3rd, and then begin again on January 7th and continue until Tuesday, March 11th.

Each student may enrol for the entire 18 nights: if they enrol for only the first eight (8) nights, the fee will be \$3.00; and if they enrol for the entire eighteen (18) nights, the fee will be \$5.00. Our reason for having more nights than formerly is to enable students to really make a worthwhile achievement in the various subjects, e.g., typewriting students would be able to arrive at a reasonable competence in that time.

Our night programme will run from 8:00 to 10:00 p.m. Persons interested must send in applications before October 11th and if there are not enough registering for a course it will be cancelled. It is necessary to know by that date whether there will be a class or not in order that the instructor may make preparations.

It is important that persons signing for a course be serious about attending classes. If people sign up and only come for a few nights, it is discouraging for teachers. Some good instructors have refused to take classes because absenteeism among students in other years has caused them to feel incompetent.

CLASSES ARE:

CHEMISTRY —

Grade 12 level. — This course will cover as much of the Grade 12 programme as possible. It may take students two years to cover the regular programme. When it has been achieved a diploma

Our Ever Changing Educational System

REPORT OF THE ONTARIO TEACHERS' FEDERATION COMMITTEE TO THE INTERIM SCHOOL ORGANIZATION COMMITTEE FOR HALIBURTON COUNTY.

FORWARD

Because of the monumental importance of the forthcoming changes in educational structure to the students, to the population at large and to the teachers of Haliburton County, this presentation has been compiled. In order to ensure that our children will receive the best education that we are able to provide, we, the teachers of Haliburton County, suggest that the information on the following pages may well form the nucleus of bigger and better ideas in our constant striving for improvement in the educational field.

This report is intended as a digest of suggestions that is to be backed up by much fuller and detailed explanations later this summer. These suggestions have been thought out by committees on which all of the teachers of Haliburton County have had the opportunity to work if they so wished. The opinions found in this report are based on the work of teachers and principals.

We are extremely happy with the co-operation that has existed to date with I.S.O.C. and look forward to many years of continued close co-operation between staff and Board. Only through such close and free exchange of ideas will it be possible for the new Board, and its academic staff, to create the optimum learning environment for all of the children of Haliburton County.

We believe that there should be a committee of teachers of the new system set up as an advisory committee to the Board. Its membership should consist of one teacher (not principal or vice-principal) from each Elementary School in the county, and three teachers from the Secondary School. This committee should be given an opportunity early in each school year to meet with the Board and to talk about mutual problems. They would assist the Board in presenting ideas on consultation of schools, construction of new buildings, administrative difficulties and other matters pertaining to education. Mr. J. Douglas Hodgson, Chairman of Ontario Teachers' Fed-

a budget for the coming year. The superintendent and the principals would then review the proposals for each school, and then the superintendent would present the revised figures to the board for the whole educational system.

Recruitment of Teachers
There should be a committee consisting of board members, the superintendent and the principals for the various schools to decide on what staff is needed, to do the advertising, interview applicants, and to hire personnel. The principals of schools should have a final voice in the recruiting of staff for their schools.

Student Insurance
In order that all students have a minimum coverage, the board should consider paying for the dollar policy on every student in this system. If parents want more coverage, then they would have the opportunity to pay the additional premium.

Use of Schools by Outside Organizations

The board should set up policies regarding rental of facilities and no rentals should be made until the principal of the school concerned is consulted as to whether it conflicts with school programmes.

Plans for New Schools and Additions

Teachers believe that buildings should not be planned until decisions as to school programme have been made. Build facilities for specific purposes. Teachers, being the experts, should be used in an advisory capacity in the planning of schools.

SUPERVISION OF TEACHERS

(a) Rating of Teachers:
There should be a written rating on file in the director's office on every teacher of the system. Ratings should be made on all new teachers to system and every two years thereafter.

Any rating should be made by three people, not one: perhaps the director, the principal, the subject consultant and/or department head. The teachers should be informed of his rating before any report is given to anyone. The teachers should at this time be permitted, before that report is given to anyone, to ask for an inspector from the Department of Education or other source to evaluate his work. All ratings should be in writing and only what is on paper should be given.

twenty-five pupils. With the setting up of county boards and the consequent decentralization of authority from the Department of Education to county educational leaders, there is a danger of the system becoming narrow in outlook and philosophy; therefore, there needs to be greater emphasis on contact through visitations and other means with other systems and schools. Also there should be a good library of books on professional subjects within the county. Therefore, it is necessary that there be a special budget for these expenses.

SCHOOL PROGRAMME:

Special Education

The ideal situation would have special educational opportunities for both extremes, the gifted and slow learners.

There should be junior and intermediate "Opportunity Classes" and Service Courses at the secondary level. The Occupational Programme would continue for those with more ability than Service Course students.

The Elementary Field

Industrial Arts and Home Economics should be taught to Grade 7 and 8.

The Secondary Field

School programme should be based on needs and desires of students.

(a) The introduction of Four Year Arts and Science Programme.

It is needed for students who lack skill and interest for Four Year Business and Commerce and Four Year Science, Technology and Trades.

(b) Art should be introduced if Grade 8 students show a need.
(c) Rapid calculation and Data Processing should be incorporated in Four Year Business and Commerce course.

CONCLUSION

It will be very easy to fall into the error of assuming that because our present buildings exist each with its own particular sphere and function, that we should continue to use them in the same way. We suggest that serious examination of the existing facilities and the uses to which they are put be made with a view to establishing the wisdom of a different arrangement of groupings of grades and that despite the existing buildings and facilities, we not overlook the possible advantages of new consolidations.

Grade 12 level. — This course will cover as much of the Grade 12 programme as possible. It may take students two years to cover the regular programme. When it has been achieved a diploma credit will be granted.

CONVERSATIONAL FRENCH —

Mr. P. Chevrier, the teacher, would like all students to have at least two years of French instruction before enrolling. This restriction is to allow students of last year to go on from where they left off.

CREATIVE WRITING —

Writing For Money. —

How to write what editors will buy: stories, articles, plays and verse, for radio, T.V., theatre and the press. Conducted by Mr. H. J. Armstrong.

CURRENT AFFAIRS AND CIVICS —

This course is designed for adults who would like to associate with other adults interested in discussing current topics such as local municipal affairs and education, population explosion and birth control and topical films, etc. — Mr. N. McNeill.

MACHINE SHOP —

If a class turns up for Machine Shop we would attempt to cover the Grade 12 programme and give students credit after a number of years instruction, depending upon the progress of the class.

SEWING —

Mrs. Carol Duncan. — Plan to do lace work for Christmas in Fall Session.

TYPEWRITING

WEAVING

WOODWORKING —

Mr. Paul Muller, the teacher, will allow each person to do his own project.

Second Choice
Name Telephone No.
Address

Send applications to:

The Principal, Haliburton Highlands Secondary School
Box 507, Haliburton, Ontario.

istrative difficulties and other matters pertaining to education Mr. J. Douglas Hodgson, Chairman of Ontario Teachers' Federation Committee. Mrs. Celia Brown, Secretary.

Mr. Max Archer - Victoria St. Public School, Haliburton, Mrs. Gladys Armstrong - H.H.S.S., Mr. S. Baker - Lakeview Public School, Haliburton, Mr. A. Brown - Dorset Public School, Mrs. Donald Finlay, Jr. - Cardiff Township Public School, Mr. M. R. Herlihy - H.H.S.S., Mr. Charles Hughes - Wilberforce Public School, Mr. Kelvin Jermyn - H.H.S.S., Mr. Harold Morgan - Minden Public School.

ADMINISTRATION:

The Director of Education

The director is to be the chief educational officer of the county board. He would be the only person who would appear regularly before the Board in order to receive instructions on board policy and also make recommendations on behalf of other people in the system. Notwithstanding the above, any person shall have opportunity to appear before the board. Under the supervision of the director there would be an Assistant Business Administrator who would look after the records, pay the bills, make the grant calculations, etc. Each principal would be under the director and directly responsible to him for the management of the school. The director must also operate through and with the consent of the principals in carrying out board policy. Teachers, caretakers, office secretaries and other personnel in the schools have access to the director only through the principal. The several elementary school principals and the secondary school principal with the superintendent acting as chairman, act as an executive committee to administer the completely integrated educational system of the county.

When the new board has its first meeting on the second Monday in December 1968, its first business should be to make arrangements for advertising for a director and hire him as soon as possible. The success of the system will largely depend on him and it is important that he be involved in the initial planning and management. An earlier ap-

he should set up the guidance programme in all schools.

Both the coordinators of library and guidance services should be directly responsible to the director and work through the principals of the various schools with in them.

(c) Audio-Visual

There should be an audio-visual expert working under the county librarian from board offices who would be in charge of equipment, repair broken machines, and make and deliver video tapes, projectors, etc. to several schools. Each school should build up its own stock of equipment. He shall provide all teachers with an inventory of all equipment in system.

(d) Psychological

There is a great need for expert assistance for children with emotional handicaps and other mental disorders. The county should either have the Department of Education provide psychological services or contact for help from a neighbouring county system. Teaching staff must have an in-service programme in recognizing these problems before referral can be made. This need is urgent because of the increasing number of problem students in our system.

Budget

The principal of each school would be required to present to the superintendent in January

of Education or other source to evaluate his work. All ratings should be in writing and only what is on paper should be given to anyone. Any teacher who is going to be dismissed should be notified by March 1st in any year.

(b) Contracts

New contracts should be provided each year, as early as possible with the salaries for that year upon them.

(c) Salaries

They should be equal in elementary and secondary schools, regardless of grade taught. In other words equal qualifications, equal salary.

(d) Fringe Benefits

Cumulative Sick Leave and severance provisions should be continued. It is recommended that the Board consider paying part of the O.H.S.C. and P.S.I.

(e) School Hours

Teachers should not be required to be in school any time additional to that demanded by Provincial Regulations.

(f) Class Size

No school should have an average class size of greater than

Walter Safety says,

COMPLETE ELECTRICAL SERVICE
PH.60 MINDEN

HALIBURTON COUNTY BLIND PEOPLE ARE GREAT "READERS".

One of the services provided by CNIB for our local blind people is the Talking Book Machine backed up by a well-stocked library of taped books. At the annual meeting of the Haliburton County Advisory Committee CNIB held recently, it was revealed by Mr. C. G. Hilborn our blind District Field Secretary from Peterborough, that our Haliburton County blind folk use this service more frequently than any others in the Dominion of Canada, according to a recent survey. He also reported that a blind graduate of our local High School, Grant Brooks is again back at University. A staff of voluntary readers at CNIB headquarters prepares taped text books for him and other blind students.

The Annual Meeting of the committee was presided over by Chairman Archie Stouffer of Minden with some 12 members present. Miss C. Dawson travelling blind teacher of Crafts and Braille was also present and gave a vivid account of her semi monthly visits to her blind students in our midst. A letter was read from the Director of the Training School for Seeing Eye Dogs in New Jersey, which informed us that these dogs are available for the use of qualified Canadian Blind people. The treasurer Kenneth Wilson reported that more than \$1,600 was collected in the 1967 campaign for funds. Officers for 1968-69: President Ronald Barr Gooderham, 1st. Vice-President Rev. R. J. Carder Haliburton, 2nd. Vice-President Ross Harrison Carnarvon, Secretary Mrs. Carl Wallace Eagle Lake, Medical Officer Dr. Gislason, Minden, Campaign Chairman Archie Stouffer, Minden.

An executive Committee of 14 members represents most parts of the County.

The Campaign for funds is now underway and our minimum objective is \$1,700. Please give generously when the canvasser calls, — or if you are missed, send your gift to the treasurer Mr. Kenneth Wilson, Bank of Montreal, Haliburton or to one of the officers.

DOLLARS AND GOOD SENSE

by William J. Martin

Dear Sir: When we first got married we decided that we would live on my salary and, for as long as she continued working, put my wife's salary in the bank. We decided we would save it until such time as something came along that we both wanted, and we could use "her" money for that. Now, I want to buy a new car and my wife agrees that we should have one, but she wants to leave what she calls "her" money in the bank and pay for the car out of my income. I don't think that's fair. What do you think?

M. M.

I think the original concept on which you and your wife agreed is correct. If circumstances make it at all possible, income which the ordinary working wife brings home should not be used for everyday living expenses, but should be set aside for that "something" in the future which cannot be handled readily by the husband's income. I am assuming that is the basis of the agreement which you and your wife made at the outset.

It would seem to me, however, that somewhere along the line your wife succumbed to a very serious temptation — that of referring to the income which you bring in as "our money" and that which she brings in as "my money." Now semantically that may be an acceptable way of

separating the two incomes, but your wife has come to believe this. She no longer thinks of the arrangement on which the two of you agreed as a way of setting aside part of the collective income for future necessary or desirable purchases.

She actually believes that you are trying to spend "her" money when you should be spending money that belongs to both of you.

Either that or, psychologically, she is trying to punish you by withholding money over which she feels she has an extra degree of control.

I would say there is more to this situation than whether or not you buy a car and how you pay for it. You and your wife must re-examine together your common-goals and see if you can't reestablish the spirit of partnership which prevailed when you set up, originally, what I continue to believe is a sound program of family financial management. When you do, I feel certain the matter of how you are going to pay for your car will resolve itself.

NEW SYSTEM FOR PROPERTY TAX

In an unprecedented mass mailing, all homeowners, tenants and landlords in Ontario — about 2,000,000 in total — are receiving a leaflet from the Department of Municipal Affairs in late September or early October.

The leaflets describe the province's new system of property tax reductions, spelling out how it provides benefits for tenants as well as homeowners.

According to Municipal Affairs Minister Darcy McKeough, the mail drop is an unusual measure

for an unusual situation. "The tax reduction system provides a benefit for every eligible household in the province. Because of the unique nature of the system, it is essential that every individual homeowner, tenant and landlord fully understands his own rights and responsibilities under the system."

Every owner of a separately assessed residential property is entitled to receive the full amount of the reduction from his municipality.

If the owner is also a landlord, he must, under the terms of the law, pass along the full amount of the reduction to his tenants.

Tenants who moved by June 30 must apply to landlords to be entitled to a portion of the reduction. If a tenancy ended after June 30 or continues to December 31, landlords are required to pass along the reduction automatically by December 31, 1968. To be sure they get the benefit to which they are entitled, any tenants who have moved during the year are advised to notify their former landlord of their new address.

BELL MAKES BIG CHANGEOVER

Underway since last November, the final phase of a \$3½ Million programme to increase the call carrying capacity of the Toronto Toll-Switching System will cause some delays in long distance calling in and out of Ontario centres over the next several weeks.

A Bell Canada spokesman said today the company had no alternative but to reduce the load-carrying ability of the long distance switching equipment while the final extensive changeover and enlargement of the Telephone Network Distribution System is carried out. In principle, the Communications Highway expansion program could be compared to a road widening project where certain traffic lanes are temporarily closed during the construction period. He stated.

In order to make the changes with the minimum of interruption to the normal flow of Long Distance Traffic, the Program will be carried out in two major stages starting over two weekends this month when the traffic load, particularly Business, is greatly reduced.

The first stage which affected the long distance calling pattern between Trans-Canada Points, The United States and the Montreal Region took place October 4. The second stage, which will affect the long distance calling pattern between a number of Ontario Centres and some U.S. points will take place starting the weekend of October 18.

RED CROSS
IS ALWAYS THERE
WITH YOUR HELP

Buy into Canada.

There are probably as many good reasons for buying Canada Savings Bonds as there are Canadians. There are the hopes, plans and ambitions you have for yourself and your family. There is the desire, which all of us share, to play a part in building the future of our country. The simple, safe, profitable way to help realize these goals is to buy Canada Savings Bonds.

They offer an excellent return. The average yield to maturity is 6.75% a year. There are fourteen annual interest coupons which begin at 5.75% and rise to 7.00% for each of the last nine years. These can be cashed each year as they become due. Better still, if you choose to keep these coupons uncashed, you can earn interest on your interest. Take full advantage of

this option and, when your Bonds mature, your total interest-earnings plus your original investment will amount to \$250 for each \$100 invested.

They are available to everyone. Canada Savings Bonds are available to every Canadian resident in amounts from \$50 up to \$50,000, for cash or on instalments, wherever you work, bank or invest. Adults, children, businesses and institutions—all may buy them.

They are instant cash. You can cash them any time at any bank in Canada at their full face value *plus* earned interest.

Few investments are so profitable. None builds more surely for the future. Buy into Canada *today*. Buy Canada Savings Bonds. It pays.

It pays.

MINDEN, ONT.

Recent balmy weather prompted Sir Sandford Fleming sociology instructor Gary G. Caldwell (left) to move his classes outside to a grassed quadrangle at the Peterborough campus. Mr. Caldwell makes a point to (left to right) Yvonne Post, of Apsley, Lynda Rahn of Lindsay, Brenda Small of Cobourg, and Noreen Musclow, of Bancroft. The girls are part of a class of student nurses from Peterborough's Civic hospital, who are taking sociology and other academic subjects at the College.

60TH WEDDING ANNIVERSARY — MR. AND MRS.

ROBERT JAMES DEACON

Mr. and Mrs. Robert James Deacon of Lindsay celebrated their diamond wedding anniversary Saturday and during the evening were guests of honor at an informal dinner at the Victoria Room at the Bonfire Restaurant.

Married on September 2, 1908, Mr. and Mrs. Deacon's six children, twelve grandchildren and three great-grandchildren attended the happy function along with four close family friends.

Congratulations were received by the honored couple from the Queen, from Prime Minister of Canada and Premier of Ontario, from the Hon. L. M. Frost, the Hon. John Diefenbaker, the

Hon. Robert Stanfield, William Scott MP, Glen Hodgson MPP, David Logan and Lindsay Mayor John Eakins.

The six children who attended were Alice (Mrs. Duncan

Hugh MacMillan) of Oshawa, Olive (Mrs. Archie Jewell) of Kirkfield, Elva (Mrs. Ken Richmond) of Lindsay, Harold of Minden, Hazel (Mrs. Van Valkenburg) of Bobcaygeon and Eldon of Minden.
